ABSTRACT

Designed for students planning to transfer within the University of Nevada (UN) System, this guide provides general information and specific data on the transfer status of courses offered by the four community colleges in the system. Introductory material provides information on UN admissions, transfer courses, course numbering, curriculum planning, credit by examination, specialized degrees, and programs of study for transfer. A directory identifying sources of additional information about transfer at the community colleges and UN-Reno and UN-Las Vegas is followed by instructions on using the guide. Then, for each community college, courses are listed with their transfer status at UN-Reno and UN-Las Vegas. Notations are provided indicating whether the course is transferable as a departmental or general elective, or if a comparable course is offered at the university level. Footnotes provide additional information, such as maximum number of transferable credits and course name changes. (LAL)

General Transfer Statements

Course transfer status listed in this guide is subject to change. Courses that transfer from CCCC, NNCC, TMCC, or WNCC to UNR or UNLV only as of January 1, 1983 are listed in the guide. Please contact your counselor or offices listed in the directory for questions concerning specific courses or courses not listed in the guide.

Admissions

Associate of Arts Degree Graduates

Completion of the associate of arts degree from CCCC, NNCC, TMCC or WNCC will be the primary basis for admission to upper division study with full junior status at UNR or UNLV. Baccalaureate level courses included as a part of the associate of arts degree will transfer to UNR or UNLV at a minimum as general elective credit. Completion of the associate of arts degree does not guarantee satisfaction of all university lower division requirements.

The receiving university will evaluate all transfer courses attempted at the community college (and any other educational institution attended) and compute an overall admission grade point average in accordance with the institution's transfer policies. If the overall transfer grade point average computed by the receiving university is less than "C", admission on "probation" may be considered, and if admitted all grade point deficiencies must be removed prior to graduation.

Other Associate Degrees

Baccalaureate level courses which are taken in such associate degree programs are transferable to the universities. However, students with these degrees are not normally guaranteed junior status.

Non-Associate Degree Admissions

Approved baccalaureate level credits which are completed are transferable to the universities as a minimum as general elective credit. Universities require an overall "C" average in all completed transfer courses attempted as a minimum standard for admission from community colleges. The grade of "D" is accepted for transfer (provided the overall grade average does not drop below the prescribed "C" level), and counts toward a bachelor's degree in the same way as "D" grades obtained by students enrolled in the lower division of the universities. However, it is at the discretion of the department or college at the university offering the major as to whether courses with "D" grades in the major satisfy requirements in the major field. An applicant who does not satisfy university admission requirements upon graduation from high school must complete the equivalent of 15 semester credits or more in baccalaureate level courses with an overall "C" average or above at a community college or other accredited institution to qualify for admission as a freshman. Any student under academic suspension from a university may attend a community college, and appropriate credits and grades earned are applicable toward satisfying the requirements for readmission to a university.

Transfer Courses

A transfer course is one that is acceptable by a receiving community college or university to apply toward an approved degree program at that institution. All baccalaureate-level courses are transferable. A *maximum* of 64 credits is acceptable in transfer from a community college to a university. Transfer students are not required to take examinations to validate credit in those courses that are approved as transferable.

The Admissions Officer at each college or university determines the acceptability of general elective transfer credits. Departmental, college, or other requirements or equivalents are determined by the appropriate department or college for course evaluation. *The receiving institution also reserves the right to determine the transfer level of a course.* Written justification will be provided to the institution in cases where transfer is not allowed. Transfer students should supply transcripts of their community college credit to UNR or UNLV prior to their junior status, whenever possible.

Course Numbering

The following common course-level numbering system is in effect for the University of Nevada System:

a. Community college occupational courses and general education courses	100B-299B
b. Community college community service courses	100C-299C
c. Community college developmental courses	100D-299D
d. University lower division courses and community college transfer courses	100 - 299
e. University upper division courses	300 - 499
f. University graduate courses	500 - 799

Curriculum Planning

Community college students should be encouraged (by counselors and academic advisors) to choose as early as possible the institution and program into which they expect to transfer. This is essential in order to plan programs which include all lower division requirements of a university. A student who transfers within the System from a community college to a university may choose

one of three catalogs to satisfy the baccalaureate graduation requirements:

a. The catalog in effect for the year of admission to the community college—provided admission into the university is within a five year period of time from initial enrollment in a baccalaureate level program at a community college, or

b. The catalog effective for the year of admission to a university division for a bachelor's degree, or

c. The catalog effective for the year of graduation from a university division with a bachelor's degree.

A combination of the various catalog requirements is not permitted.

Credit by Examination

The maximum number of credits that may be earned by examination to apply toward a degree may not exceed one-half of the minimum number of credits required for that degree. Credit may be granted for the satisfactory completion of College Board Advanced Placement Examination (CBAPE) with scores of 3, 4, or 5.

Credit may be granted for the satisfactory completion of College-Level Examination Program (CLEP) general or subject examinations and American Collegiate Testing (ACT)/Proficiency Examination Program (PEP) exams as published in the UNR and UNLV catalogs.

Credit granted on the basis of national standardized examinations is the equivalent of an S (Satisfactory) grade for graduation purposes.

General Information

Capstone Programs

The primary transfer degree is the associate of arts. However, to provide flexibility in program planning, "capstone programs" are being developed which will lead to a specialized bachelor's degree. These programs will be designed on a two year community college curriculum leading to the final two years at UNR or UNLV and a degree. Such agreements will be approved between community colleges and *one* of the universities. *CAPSTONE COURSES NOT OTHERWISE TRANSFERABLE, WILL NOT TRANSFER IF THE STUDENT DROPS OUT OF THE CAPSTONE PROGRAM.*

UNLV-CCCC *Vocational Education Capstone* Program:

Individuals pursuing or having completed the Associate of Applied Science degree (A.A.S.) in Vocational Education at Clark County Community College will be able to transfer that credit into the baccalaureate Vocational Teacher Education program at UNLV.

As part of the B.S. degree requirements, 31-35 credits of general requirements in English, Social Science, Arts, Humanities, etc. are necessary. Many of these general requirements are transferable courses that may be taken at CCCC.

This capstone program is administered through the College of Education at UNLV. Therefore, for more specific information about the program, please contact the Department of Secondary, Postsecondary and Vocational Education in the College of Education at UNLV.

Programs of Study for Transfer

The transfer of individual courses does not assure satisfaction of specific curricula requirements for the various majors and degrees, therefore, *for more specific information on individual majors, contact your counselor and read the UNLV or UNR catalog.* In addition, students may select electives from the specialized *transferable* courses that are directly related to their chosen majors, in the following areas: Natural Science and Mathematics, Social Science, and Humanities or Fine Arts.

Directory

Following is a list of places to obtain further information which may answer additional transfer questions. Also listed are individuals to see at each institution if you have any questions concerning specific courses or courses not listed in this guide.

How to Use This Guide

To determine the equivalency of a community college course to the 4-year institution:

1. Locate the section of the guide pertaining to the community college of interest.
2. After locating the community college, find the particular course in question and read across to determine equivalent course(s), if any, at UNR or UNLV. Courses are presented alphabetically by course prefix in ascending course number sequence.

By action of the Board of Regents in December, 1979, Western Nevada Community College was divided into two colleges: Western Nevada Community College located in Carson City and Truckee Meadows Community College in Reno/Sparks. This guide reflects courses offered at these two community colleges. Prior to August 1980, all courses were listed under Western Nevada Community College.

Abbreviation Codes for Transfer Status

XXXXnnn - Equivalent course number

The community college course is transferable and evaluated with a specific title and number considered to be a comparable course at the UNR or UNLV, even though the course numbers may not be the same.

DE - Department elective

The community college course is transferable and can fulfill major credit requirements in the specific department.

GE - General elective

The community college course is transferable and fulfills total credits needed for graduation. It is at the discretion of the specific college or department how those courses are counted (i.e., requirements for the college or elective credit).

Italic - Footnotes

Footnotes indicate some additional information which is located immediately following the program course listing in italic.
